Θέμα: Fahrenheit Scholarships for International PhD students

Dear Sir/Madam,

Fahrenheit Universities would like to invite the best three International PhD students for 12-months research stay at one of the Fahrenheit Universities, i.e. Gdansk University of Technology (<https://pg.edu.pl/en>), University of Gdańsk (<https://en.ug.edu.pl/>) and Medical University of Gdańsk (<https://mug.edu.pl/>).

Our universities are located near the Baltic Sea in Gdańsk, which is perspective, forward-looking, economically developed City of Freedom with a coastal climate.

The participants of Fahrenheit Scholarships in a one-year internship will receive a scholarship paid monthly (6500 PLN per months), free accommodation (provided by City of Gdańsk) and the reimbursement of travel costs.

We encourage young scientists who are preparing a doctoral dissertation at your university, are the authors or joint authors of a scientific publication and wish to pursue their scientific interests at one of Polish leading universities - to take advantage of the offer. This is a unique opportunity not only to conduct interdisciplinary research as part of a PhD dissertation, but also to gain international experience and make new valuable contacts.

The deadline for submission of applications is 15 October this year. Details are attached and also available at [our website page](#)

In case of any questions or further information please contact the FarU Office at +48 511 946 646 or office@faru.edu.pl.

Yours faithfully,

--

mgr Karolina Sienkiewicz
